

The following residents generously shared their thoughts on how Rushville's enhanced trash and recycling collection service is working for them.

Mike Daubenspeck
5th Street

"I think the program is great. My three-year-old daughter and I don't have to dodge trash on the sidewalks and grass anymore, so it's working out great."

Matt Halcomb
West 9th Street

"The program is working out well. We already recycled, but the larger totes help us recycle even more."

Jeff Wilson
local landlord

"It's cleaner in the alleys, with the overall appearance of the city better and cleaner. Lots of my tenants like the size of the totes. It's a more efficient service with less bagged trash out for varmints to get into."

Jerry Hartwell
10th and Morgan Street

"We've been recycling for a long time, but we put out more recycling now than trash. There's not nearly as much trash around and I think the crews do an outstanding job."
